Why does thta guy from Arkansas keep sying "here in PA"?

just wondering...

By "here" he probably means in the USA.

Chaz, do you know what streams they will be fishing? Public or private?

Even forgetting the absurdity of pellet-fed-hogs-in-a-barrel fishing, it would be nice to see how they fish on public water like Spring or Penns that we can or do fish all the time. But it might not be possible to close down public water for the event.
