Amount of money Jake spends on a typical all day long fly fishing outing:

Flies - \$10 - \$20 Only if I really need a certain pattern

Gas - \$20

Food - \$5 -\$10

Beer - \$5 -\$10

Total cost \$40 -\$60. And that is on the high side.

I can manage a decent outing and spend only \$10 if I already have a half tank of gas.

Knowing that I don't need someone to tell me how to cast, tie my leaders, and tell me where the fish might be hiding,

----PRICELESS----
