Jake, love my Forester. Who cares if it seems to be the car of choice among lesbians. Its also very popular among engineers, so at least I fit one stereotype.

Tim, I had a friend in high school that rebuilt a Scout out of I think it was 3 junker scouts. It was a beaut. Baby blue with a big V-8, all custom gauges, and a system. It was one bad @\$@ ride. Laid some serious tire too. Wonder what happened to it...

Was kind of funny that they always had a "parts car" in the yard, though.
