Your largest wild/native trout?

URL:

I'd love to hear/see what everyone's best wild/native trout caught in a Pa stream was. My 2 best wild browns were a Sullivan Co 19", and a Potter Co 18". My best native was 13.5" from Carbon Co.

Maybe the mods could put this thread in the General Forum? That's where I meant to put it.

And yes, that's indeed a wild brownie I caught (2003) from the WB of Fishing Creek in Sullivan Co. I wouldn't have paid almost \$300 to mount a stocked trout. 😊
