Osprey, I'm a hopper..I have a prosthesis but it has a tendency to pop off when i sweat and im a hard core sweater. I use my wading crutches ,but I've pretty much fallen into every stream in central Pa ,not to bad in hot weather but a be-atch in the spring or fall.I only have about a 4 inch stump so its hard to even get a leg that fits well so Im pretty much a crutcher all the time.Only ever had one that fit right and that was built in California back in the 80"s,still I havent let it stop me from fishing..my fishing buddy is 6'6' so i have someone to haul me out when I go down.
