Dave- thought I would ask you since your an old salt. Did you catch these trout in a variety of ways or mostly streamers?

.

Paul,

Caught 'em with a variety of flies. I'd hazard a rough guess that probably over two thirds of 20+" trout I've caught here in PA have come on nymphs and streamers. The 11" brookie fell for a nymph in a mountain stream in 1985 - wish I had a photo of him but he's one I'll always remember. I also don't have a photo of the largest trout I've caught in PA - a brown in Fisherman's Paradise (hatchery escapee) that was about 8lbs and also fell for a nymph.
