Largest wild brown 18" from Spring Creek. Largest native brookie from a local freestoner 11". Last fall I caught a Brookie out of Spring Creek that measured 12". Nice, mature, colorful male that I'm almost sure was wild. Only one of two Brookies that I have ever caught in Spring Creek. Anybody else here ever catch a Brookie out of Spring Creek? I have also caught 2 different wild Tiger trout from a nearby unstocked limestone stream. The largest of which went 14". What a trophy he was. No matter how many trout I catch in my lifetime he will surely remain my top trophy.
