It's a personal choice for me to want to keep it just the way it is for myself. As long as it's legal for those that want to get involved , they should be able to make the choice they are comfortable with. I fished in a local bass tournament on Shawnee Lake , it was \$20.00 or so to get in , a friend with a boat took me as his partner. We did not catch anything at all , There were prizes i don't remember , some cash , we got skunked. I just don't want to go down that path with fly fishing and i rather not see that happen on a large scale.
