The best way to learn something is to teach it!

I could do a session on **indicator fishing**, supply printouts of my talking notes for the # of students, and topics include:

“Bobber” Indicators

Yarn Indicators

Dry Fly Indicators

Greased Leader and Sight Fishing

Rigging Indicators - slip ons, yarn with clinch knot to leader, split shot

Rigging Dry Fly Indicators - connecting the point fly to the bend of the hook of the top fly, connecting the point fly to the eye of the top fly, and blood knot dropper

Should be able to bring some flies up, as well. Hope the weather doesn't suck.....

Keith
