While "A Fly Fisher's Guide to Pennsylvania", by Dave Wolf was my first book dedicated to fly fishing,

my very first book on fishing was called "Fishing - A Golden Guide." I bought it when I was about 7 at the tiny local bookstore. The thing must have originally been published in the 50's or 60's, there is no mention of graphite and the illustrations have that completely nostalgic, retro fishing look to them.

And my first book dedicated to trout fishing was simply titled "Trout, by Dick Sternberg."

However, I read various other fly fishing books before purchasing the Dave Wolf book and "Trout". I now have a few more books.

Ha I found it, "Fishing, A Golden Guide" - Copyright 1965

3wt7x,

I like how Dave simplifies the general patterns in his "coldwater fly box" section and gets right down to the basics. His way of cutting through the extra crap really helped me select good general patterns back when I first started out.
