i am an avid reader of flyfishing books. i own a bunch and love each one. i was wondering if anyone was into trading books. not to keep. i dont want to get into....this one was better or this one was in better shape than the one i got. but maybe to trade for a few weeks. i figured the shipping for a good read would be cheaper than spending 30 some dollars for a new book. let me know what you guys think. pm me if interested. thanks in advance.
