"No stronger retrograde force exists in the world. Far from being moribund, Mohammedanism is a militant and proselytizing faith. It has already spread throughout Central Africa, raising fearless warriors at every step; and were it not that Christianity is sheltered in the strong arms of science, the science against which it had vainly struggled, the civilization of modern Europe might fall, as fell the civilization of ancient Rome."

Here's a statement that was given somewhat earlier than anything WB or CA of CNN have said in support of the "Religion of Peace".

Who - without Googling it - can tell me who made the statement.
