Cabelas has the Three Forks Youth Waders in the size your asking for. I bought a pair of Cabelas Dry-Plus Waders for my nephew (same age as your son) last Christmas and he loves them. I think waders are the way to go for a kid. I wish I had them when I started and was vertically challenged. The Three Forks waders are only \$55.00, so it's not a huge investment.

Good Luck,

Matt
