Dicks or Gander Mountain, when their rubber hip waders are on sale @\$30. These will only last about a year may be 2, are durable, and you can add small 1/4" hex head screws to them or screws that are 1/4 to 3/8" long. I would recommend kids breathable waders when the child is older than 12. At 9 they are "all over the stream!" and "stream banks". You and him will have a blast!!

Good Luck U2 this year!
