Any recommendations then for material? I've got a few Cabelas bucks burning a hole in my pocket 🙄

Mixed reviews on Maxima?

I see price wise, it's pretty decent. Since I'm going to have to buy at least three or 4 spools to make the leaders (8, 6, 4, and 2lb), I don't want to drop serious dollars, but at the same time, I don't want to cheap out, either.
