Not a waste of time. Had a severe stroke 6 years ago; lost the use of left arm, hand, and partial leg. I started flyfishing in November and been fishing ever since. i got discouraged at first, but with some help and patience, i got it. sure you are going to have find a way to make it work, but you have to keep at it. I got alot of help from the staff at Flyfishers Paradise; they were very helpful there, gave me alot of tips and encouragement. you have to really watch what you are doing, but I am hard headed and fish the same waters as everyone else. I am near Spring Creek. You can talk w/ me to see what I have done or if I can help, let me know.

Steve
