Charlie,  
even if you dont have a leader, start practicing. Im not 100% sure on trout water over there but maybe when it gets nicer you can try the neshaminy for smallies/panfish or some of the parks that have ponds/lakes. My buddy lives in Langhorne next to corr creek park, the lake there looks fishy. If you can make it to the valley forge area there is valley creek and other stocked streams. Id be willing to help you out where ever, let me know. Shoot me a PM

Jeff
