Ok so I went fishing Sunday and as usual started right out with the olive bugger and what a great day. Landed 12 nice bows in 1 hour and a couple smaller browns. I tied up some smaller booger variations using peacock or I've dub for body and rabbit hair and flash for tail in size 10 with a bead. I tied these at about 18 in trailing my normal size 8 booger. The biggest fish all day was on the trailer! With a stripping action up stream I had a blast. That dropper had so much action in the water it was nuts. Def do that again.
