me I heard of them, I don't think I'll use them but I'll check them out. Years ago I had these tiny hooks that you put on the end of your tippet to change flies without tying them on. I don't think I ever used them, from what I remember I think Eagle Claw made them.

Wonder if they still make those? They would really come in handy fishing for stockies on opening day where you are changing flies every 2 minutes.

I'm almost positive Fly Tiers Heaven in Sunbury sells something like this.
