I just bought a combo from Cabelas for \$ 50. It a 5 weight 8' 6" Cahill combo. The combo is ready to fish and it is a fast to moderate action rod. It is a great set up and it is from Cabelas, so if anything happens to it they will take care of you. I had mine for a year and I accidentally broke the top of the rod in half, they told me to get another one of the shelf. Their customer service is the best!!
