So what does this have to do with Al Gore and with Global Warming? He was one of the first to talk about Global Warming, that's what he's about..... everything else is "spin" to get the working class off the subject of Global Warming.

Regan "the smoke above the Smokey Mountains is only the rotting of the plants in the forest, that's what the scientists tell us, there is no such thing as Global Warming"

the old Bush "this guy is so crazy, we'll be up to our necks in owls and out of work for every American, no such thing as Global Warming"

congressman ? last year "Al Gore is the head of the biggest scam ever put on the American public, with all this craziness about Global Warming"

young Bush is too stupid to know what CO2 is! and "environment" is a big word for him..... he can't pronounce it, so how could he understand it! W gets a pass on this one! Sometimes being the dumbest guy in the room is what it takes to mislead the folks in America.

God Bless America!
