Your LAST book on flyfishing ?

There are few of the “last” ones, I do read them simultaneously. (Trout Madness under real John D. Voelker name, Pennsylvania Trout Streams and Their Hatches – Charles Meck, Fishing the Midge – Ed Koch, Advanced Fly Fishing Techniques – by Lefty Kreh, Nymph Fishing for Larger trout by Charles Brooks, Fishing the Nymph by Jim Quick).

The actually the “**last**” one I got yesterday in the mail is the “Fishing the Tandem Flies” by Charles Meck – about tactics, techniques and rigs to catch more trout. The book is small (I don’t know why I expected to be the big one 😞), 119 pages.

If some experienced anglers do not find it as a colossal value many from Pennsylvania to Montana rivers and creeks and myself do.

You can find there the killer combo you want to try. Many rigs and suggestions about fishing with a dropper.

One small issue: I would like to have the photo part in color.

Maybe this book is small but **big** in content. It’s a keeper.
