After attempt to read maybe a dozen of books and not be able to finish one I got my hands on "Even Brook Trout Get the Blues", since than got all of John's Gierach books (with exception of the small volume of his poems).

Similarity.

I've never read a single "technical" fishing manual cover to cover, or in one general time frame, with the exception of some of his books. Everything else is far too boring to be entertaining, and I'd rather go fishing and make mistakes than read about fishing.

Gierarch's books, OTOH, have been enjoyable, and *entertaining*, reading.
