A new one can be as low as 10.00 (although I wouldn't pay less than 30 for a line)

I'll sell you a \$10.00 line for \$30.00 anytime you want one. I've been using a \$12.95 line from Wal mart. I'm using it to find what line weight to use on a rod I built on an unlabeled blank. It's Cortland Fairplay. It's not to bad for the price.
