I used to useabela's brand waders for years. I was turning them in almost once a year for a new pair usually as they started leaking or to extend my warranty on them as I have been stuck at 13 months and 15 months and lost my as\$ on them as they pro-rated the waders. Recently I purchase the LL Bean helix waders and would say they are nice especially for around \$300 with a LIFETIME no questions asked satisfaction guarantee. Service has been awesome so far as I ordered a pair on a monday mid day and had them by wednesday with free shipping. Just ordered a pair of the waist high model today and paid for overnight as I need them by friday the latest. Pleasant people to do business with, outstanding return policy.
