hehe, yeah, when they were out a few years ago it was some of the best fishing in years, truly a big thing for fishermen. I missed most of it, though. I've only got like 14 years to wait till it comes around again, lol.

Actually, I know its not that long, there are many broods, and there's periodical cicadas somewhere in PA every couple of years, it's only 17 years for a given spot.
