Very nice setups, i can't wait to get my room finished ,the darn walls were painted pink by previous owners, and it has that wierd kind of Cardboard material they used in place of drywall to replace the plaster and lathe.My room is in the attic, will need a small air conditioner and some blinds too.

Believe me when i say when you get the flyfishing/flytying bug,it a slippery downhill slide.seems like you never have enough room or storage.

tight wraps & tight lines
