hi ryan.thanks for your reply it is informative and helpful,i am already looking forward to fishing in p.a. never fished chalk streams before,our lochs are mainly very peaty (whisky colour) but further north the y r limestone a lot more food in them so better fishing.i was hoping to camp for a few days on loch ossian near rannoch moor but heavy rain forcast so give it a miss,bit of a shame as our season here stops 16th oct hope to get out to fish nxt week pending weather conditions.

thanks again

tight lines

simon
