I know nothing about bowfin other than to note that if they are in the Geneva Marsh, they either already are or will be in Conneaut Lake and French Creek soon. The marsh is the outlet of Conneaut Lake and drains to French Creek.

I did my undergrad years not far from there (University of Thiel, Greenville Campus, as we called it) and we used to fish up there quite a bit from shore. Mind you, this was a long time ago, but the best bass/panfish angling in the entire complex (its a huge piece of swamp/water) was in the Hartstown Swamp and Crystal Lake, which was right across 322/18 from the Hartstown Swamp. Access to both was easy then. I don't know what its like now. Like I say, long time ago..
