I'm planning a 1 week vacation with my wife and daughter for sometime in Mid August. Anyone care to divulge a bit of info for me to get out and do a bit of fishing? We're probably just going to rent a condo for the week just off the boardwalk. May be a good time to finally break in my 10wt setup I bought last year. (also have an 8wt I'll probably bring). Any info on where to go, and flies to use/tie would be greatly appreciated. Also what species could I expect to get into at that time of year?

Thanks,

Ryan Gouldsbarry
