never fly fished there, but i've spent quite a bit of time surf fishing the area. Here is what you can expect in the surf. Perhaps someone else can give you more of a clue about the bay (I never spent much time in the bays aside from occassional tog fishing from the 3rd street bulkhead, and occassional flounder trips with friends.

Can't advise you on what you can do with the 10wt as all my surf fishing thus far has been with conventional reels/surf rods (I like to fish for sharks, stripers, and big blues with that stuff).

If you decide to do any fishing with spinning or conventional gear, pm me and i'll give you info on that.

For now - just info on species in the surf that can be expected...how you catch them on the fly? different story...

In August you have:

Sharks:

sand bars, spinners, black tip, lemon, sand tigers

panfish like..

croaker -10inchers

spot - 10inchers

kingfish (whiting) 10-15 inches

small flounder - 12-15inchers usually

snapper blues - 10-15 inches

rare schoolie stripers - 12-24 inches.

Also the "nuisance fish"

dogfish

skates
