Tie your wets on trebles! :)

No I like to fish a team of wets, 3-4 I ties them off small swivels I use for steelhead fishing. No weight is critical at the end of the swing I like to raise my rod tip to about 11 oclock and kind of swim then up. Or I will make about 8-10 strips back in kind of like a streamer. Alot of times I will get a good bang on the 3-4th strip.
