Have to resurrect this thread.

The guy who was going to buy it a while back flaked out, and I never got around to selling this.

I'm moving back West next week, and I don't have a tube for this rod. Car is full and I'm worried this will get damaged in the move.

\$100 obo. I've fished with it several times recently, and it's a beauty to cast. Just don't want to risk the damage.
