Jdaddy....lol I'm not even going to fire back on you 😊

I was inquiring what part of York because as you well know, "York" could mean a pretty broad an inclusive area. The obvious choice is the Susky; however there are other options if he is working IN York such as the Codorus Creek south of York. Or if he's closer to Red Lion/Yoe area, he could venture down to Muddy. Alternatively, if he's on the west side of York, he could venture to the TT section of the Codorus Creek....

Do you get my drift now??? 🙄
