Pg 6 (or 8 in the PDF reader) covers the acquisition of property along Falling Spring. The purchase could have the following benefits to the public:

- \* 100 yds of stream frontage
- \* stream buffer
- \* possible installation of parking for 2 or 3 vehicles.

All in all, a big thumbs up! And isn't this just what people have been asking the Commission to do? Buy stream access? Good start!
