I have never lost a fish with them tied like this. That's just an excuse for guys not being able to control their fish.

leteres, i usually never feel compelled to respond to you with a jab, or personnal attack,(like many paflyfish members do) but saying youve never lost a fish with those is simply bs. why would you even say that? i know you can control a steehead to some extent, but the larger ones tend take over at some point(at least in my experience and observations) and either brake off or come unbuttoned, but im sure you have some "magic" tippet thats only available at your shop, that never breaks. you seem very ego-driven and i dont like seeing that on this forum or in fly-fishing.
