Hey folks.

A number of years ago when I worked in Pittsburgh I talked with an older gentleman who used to have a fly shop in Greensburg. He mentioned he had a "pinkish" colored cray pattern he tied for the Yough river. Traveled to his shop about a month later and I heard he had passed away and the shop had closed.

Does anyone know of this pattern or have a recipe they are willing to share? You can PM me if you like.

Thanks in advance!!! 😊
