How to catch stocked Rainbows?

Hello everyone,

I have a simple question! The Wyomissing Borough stocked Rainbow Trout in a location on the Wyomissing Creek. This was after Trout season started for a kid fishing rodeo. Some fish escaped being caught and are still there. I have tried a lot of flies to get them to rise. Fished early morning and late afternoon, with no luck. Then I managed to hook a 11 inch Rainbow using a red San Juan worm!!! After that nothing has worked and there no longer fooled by the San Juan. Can someone please give me some tips to get them to rise. Its really starting to become annoying, that I spend all my time there and getting no real results! Please someone HELP!!! Thanks
