Really, yoga? I think you might have to turn in your man-card.

Ahem, "**my** hippie yoga instructor **cousin.**"

Easier to read??

Ponner,

You may be on to something. Given the psychotropic drugs, I believe Gary's "cousin" may very be well be his alter ego. Further, the amazing transformation of his body shape may very well be attributed to an intense yoga regimen.

I will hold judgement on the status of his "man-card" for now.
