I was not suggesting you offended anyone and made it clear I couldn't care less if you kept a few wild trout for consumption. What I was doing is letting you know that when requesting information on wild trout streams it is best not to imply your desire to keep the trout, otherwise, as is clear (to me at least) from the lack of information you received, you are unlikely to get any information.

I apologize for trying to help. If you want to travel to southwestern Pennsylvania, I'd be happy to point you to 4-5 streams with native brook trout where you can keep your limit if you care to do so. You will need to wait until the regular season, however, as there is no harvest permitted on unstocked waters between Labor Day and Opening Day.
