All the wild ones i have seen caught are as big as my hand not legal. i know where there are natives around here but not every where i leave them a lone i might go to those places once a year till the fishin gets better. they stock fish in some of those places the places they stock might see me more than once a year. i know it is wrong to take a wild fish and it would be better if i didn't i probbaly won't. and when i do eat fish i never freeze them i eat them that day or the next. thats if i keep them. i rather red F'in meat.
