On eBay there is a seller named epicfliescanada that has a assortment with about 1300 fly's for 125\$. Great quality. I got two!

Ordered them, but how do you get 1300 I counted 342. But like I said I have not received them yet.

there are 342 PATTERNS, but several sizes in each pattern. So = 1300

That's a good base to work off of, but like sandfly said you will need some more specific patterns, or to replace those that you use alot for your area. To do that either go to a local fly shop, (they'll also give you some tips and info) or start tying yourself.
