Very nice ties Dub....is that rootbeer estaz for the thorax? I am a big fan of the rootbeer, had a good amount of success with it last year.

Thanks. Yes, it's root beer. Actually, when someone taught me this pattern last fall, they called it "the root beer". Body is a thin wrapping of Lagartun French mini-flatbraid in olive brown. Estaz collar, and a glass bead. It's a good pattern for late fall chrome.
