Speaking of overrated streams..... the Tully is almost down to a bone chilling 71 degrees! Get ready boys, it's fishing time in another 3-4 weeks. LMAO. Too bad 90% of fish have been harvested, died due to temps or they've been eaten by herons.

It gets restocked in October.

I'll say this about the Tully. I love that stream. When I get off work on a Tuesday or something, I can shoot up there in about 20 minutes. I know they're all stockies, but I still have to use 7x most time! Its a great place to practice my casts and presentation, a quick "steam blower" at the end of a work day, and a nice setting. I really appreciate all the work that goes into making that place a nice place to fish.
