I have a Fye, Richardson, FyteDeck, DownStream and Hatch and all have there place. The Richardson when you order it you need to have it setup the way you want it as for the Downstream you can add or remove boxes. The FyteDeck is a one box system that you can order other boxes (but on box system) and the Hatch 10 pull open boxes (5 on each side) that I use for poppers and pan fishing. The Richardson and Fye are just Classic chest boxes and you will like it.
