Sasquatch,

the original Richardson boxes were made in a little town in Clearfield County ,Pa..Osceola Mills.The company is still around based in Bellfonte,Pa.....<http://www.chestflybox.com/>

Mr.Richardson passed in the 90's and the building where the boxes were manufactured burned down, the property is now a parking lot and there is a sign about the richardson co.

It is a great idea, and i almost bought one.At the time i was perusing the richardson box, there was another box brought out on the market ..FOW box or Fly On The Water was a really neat box similiar but differnt idea and a few bells and whistles that the Richardson Box didn't have caught my .I didn't buy either,I discovered the Predator Chest Pack,and haven't looked back.

Reson i know about the Richardson Fly Box aside from the website is that my 2 cabins are just down the road from Osceola Mills and I did my homework to find out if this was the Richardson Chest Fly Box co. For the Life of me i couldn't figure out how a flyfishing company would be found in an area{county} that has had its streams devastated by Man thru #1 Old Growth forests being leveled, then coal was found{bituminous}and the pillage continued thru deep mining, then strip mining,now Damn Marcellus garbage.Anyhow its only 25 minutes to Lil J,15 minutes to Black Moshannon, 10 minutes to Cold stream,25 minutes to the West Branch Susquehanna, 30 minutes to spring Creek, an hour to Fishing Creek{Lamar}ect.

Tight Wraps & Tight Lines
