CSolt,

I have a new pair of redington sonic pros, look up rei they have cpx redingtons on sale im gettin a second pair of these,my first pair of redington barrierflex lasted 14 years and still work started gettin pinholes.

I was gonna get a Pair of Simms G4's but i saved a bit of cash and got a pair of the zip models,BTW the zipper really is water proof i had em out a week ago and crosed a pool up to my lower chest, end of the day..all dry, also the creek i fished was 58 degrees during midday, i would have felt it right away if they leaked.

Pm me if you want details.
