Hi, I am a beginner fly angler and I spent this weekend fishing Cross Fork, Kettle Creek, and some other small streams in the area. Actually a better description of what I did is hiking up the middle of a stream while waving a stick around in the air, since I didn't catch anything the whole time. Temp in Cross Fork at midday was around 61 and Kettle Creek was mid 60's. Those fish must have seen me coming a mile away in spite of my best efforts at being sneaky. That whole area is beautiful and I had a great time but would have had a better time if I caught a few.

Brent
