Uhhm, I believe I never sent the warranty card in so it should be good. However, do not quote me on that and i do not want to get into an argument if it is or not. So, take that for what it's worth. sale price would be \$250, but I do not even know if I want to just sell it.

Pcray, I have to think about that, because I already have a 7wt. It is not great, but it is serviceable. I really want a 5wt.
