Becker,

The offer on the 7 wt stands, I'd make it work somehow. Would have to look at comparable values, I think I spent a little less than that on the Fli (on clearance at Cabelas), and it's lightly used rather than never used. So if I had to add a few bucks to the deal to make it even I would.

But I don't have a 5 wt I'm willing to part with. Nor am I willing to pay the full value in cash. So it's 7wt plus cash to even it out or nothin. Let me know...
